LEARN, NETWORK & BECOME INVOLVED IN COMMUNITY ECOSYSTEM RECOVERY

FRIDAY, JUNE 5, 2009 VINELAND, ONTARIO

**S**pecial guests share global insights on community conservation planning

**Michelle Yaskowich**  
*Saskatchewan's Prairie  
CAP and the Role of  
Agriculture*

**Mark Carabetta**  
*Conserving Forested and  
Freshwater Systems in the  
Northeastern US*

**Dan Paleczny**  
*Adaptive Planning:  
A View from Egypt*

**J**oin community teams from biodiverse *Carolinian Hotspots* to discuss:

- ✓ Species and habitat successes, lessons learned in *Carolinian Canada*
- ✓ Linking local plans to a zone-wide effort for *Species at Risk*
- ✓ Highlights of pilot *Conservation Action Planning (CAP)* results
- ✓ Leading outreach, monitoring and restoration tools and guidelines
- ✓ Welcome new hotspot teams

For all with an interest in protecting species at risk. Our teams include government, First Nations groups, conservation organizations, stewardship councils, naturalists, land trusts, universities, green industry and more.

**R**egister soon! **Early Bird deadline is May 15th.**
